

HDVoid

Stronger than the rest!

www.plastinjectwatersystem.se

HDVoid

HDVoid our most robust range of Infiltration/Detention & Attenuation/Retention systems.

Can do heavy traffic with cover 200 mm only. Easy to handle and install.

The plates are assembled into each other via integrated slots.

Layers are tightened to each other by locking pipes entered vertical through the plates. Flatpacked and preassembled 4x4 = 1 m².

Pipe connections to be done via Collars.

Special multifunctional design allows several applications both regarding extreme load ability as well as that water can float freely horizontal.

Attenuation/Retention, 4-8 modules in height = 20-40 cm

NB! pictures are showing the old plate version!

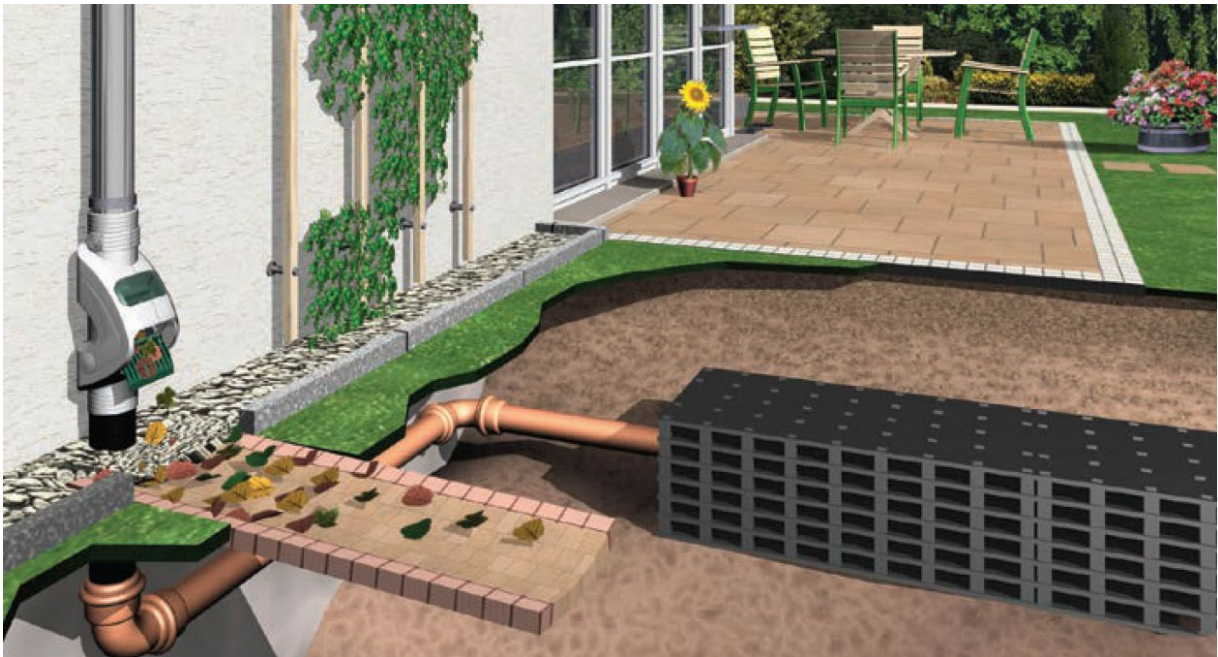

HDVoid

Facts

- Application: Infiltration/Detention or Attenuation/Retention
- Weight: 1 kg.
- Measurements: 500x500x50 mm.
- Max load vertical: 800 kN/m². (depending execution)
- Max load horizontal: +200 kN/m². (depending execution)
- Volume gross: 12.5 l.
- Volume net: 95%
- Min Cover: 200 mm.
- Max Cover: 6000 mm.
- Material: PP 100% Recycle special compound.
- Resisten: Good Chemical, Bacterial & UV.
- Tested to meet min 50 years lifecycle.

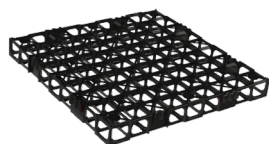

Specification

- Multifunctional execution.
- Extreme robust design.
- Modular concept.
- 95% net volume.
- Can do super low covers.
- Easy to install/assemble.
- Compatible to other systems.
- Specially developed and recycled compound.

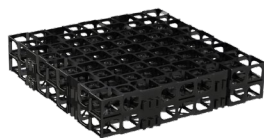

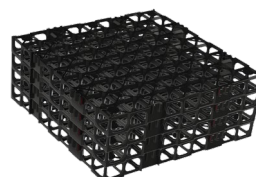

HDVoid

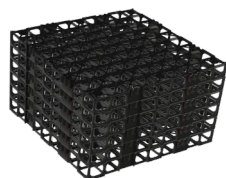

Single module, 50x50x5 cm.

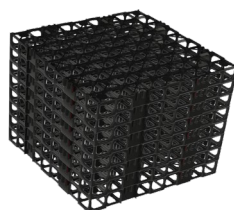

Double module, 50x50x10 cm.

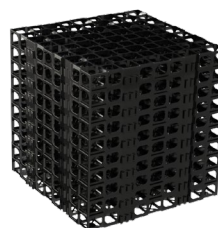

Quadruple module, 50x50x20 cm.

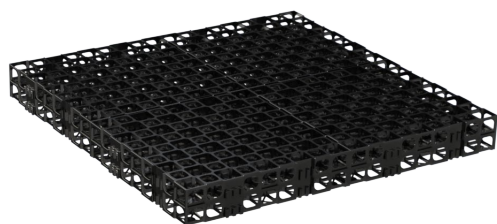

6 off modules, 50x50x30 cm

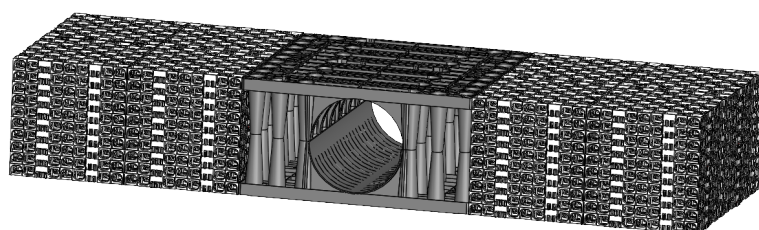

8 off modules, 50x50x40 cm.

10 off modules, 50x50x50 cm.

Easy assemble

Possible to combine flush/sedimentation from our other systems

Plastinject Watersystem AB, part of the Lundahl & Hall group, develops and provides smart solutions for stormwater applications.

Our main products are focused on cleaning the water and retain it, i.e we offer Heavy metal separators, Sedimentation systems and Stormwater boxes for nearly all enquiries.

We produce the Stormwater boxes in our factory in south of Sweden.

Turnover for the group is approx. 600 MSEK.

Feel free to contact us – a good deal, we promise!
